ECHO
Learning & Living under one roof

2020 PROSPECTUS

Providing English Courses at
Home Overseas for over thirty years

Our unique, family-based approach of learning and living under one roof offers your children a safe, fun and motivating environment in which they can advance their English skills effectively.

We focus on four core values:
Family, Safety, Individuals & Results

► Family

30 years ago **Charles and Estrid** started welcoming small numbers of students into the family home to learn English in an immersive environment. Today, **their son Alex, his wife Carmen**, their children and the ECHO teachers still live together with small groups of students as a 'big family', sharing the house and garden, **home-cooked meals**, free time and stimulating **activities** and **excursions**. Lessons take place in the comfortable rooms of the house and in the garden – there are no formal classrooms!

This approach has built long-lasting relationships with our **students and their families**: students, their brothers, sisters, cousins, friends, and, more recently, sons and daughters come back year after year. Nearly all our students come on direct recommendation.

► Safety

The **ECHO country house and garden** is in a safe and peaceful area, in the South Downs National Park, outside the historic castle town of **Arundel**. Other great destinations including London, Brighton, Portsmouth, Chichester are nearby.

Students are carefully supervised. Alex, Carmen and the teachers spend time with the students every day. Our low numbers and home atmosphere encourage students to tell us if they are unhappy or worried. We work together to help everyone feel comfortable, happy and protected.

► Individuals

No group bookings – individuals only, so it easy for students to make friends quickly. There is a maximum of only 25 students at the school and only 8 students per class. 2 to 4 students share en-suite rooms, with students of other nationalities if possible, and home-cooked meals include special dietary options.

Junior, Senior and Intensive courses cater to each student's age, level and goals. Our enrolment process and diagnostic test help us understand each student's individual needs before they arrive. Our family atmosphere promotes great communication – student-to-student, student-to-teacher and teacher-to-teacher. We love to get to know each student really well: what they like, what motivates them, how they learn.

► Results

Low numbers, intensive programmes and high levels of supervision promote our strict **English Only rule**, so that students learn non-stop, in and out of class. Regular student feedback, teachers' meetings and continuous assessment help us to adapt quickly and effectively to each student's progress and goals. Just two weeks can make a big difference to students' English, their learning skills and their motivation.

A detailed report, end-of-course certificate and recommendations for further improvement are provided.

2020 PRICES

Junior Course
(ages 12 – 14)

£985
per week
